

BE WARNED.

Heed nature's warnings! Pain tells of lurking disease. Backache is kidney pain—a warning of kidney trouble. Urinary troubles, too, come to tell you the kidneys are sick. Constant weariness, headaches, dizzy spells, days of pain, nights of unrest are danger signals warning you to cure the kidneys. Use Doan's Kidney Pills, which have made thousands of permanent cures.

Frank D. Overbaugh, cattle-buyer and farmer, Catskill, N. Y., says: "Doctors told me ten years ago that I had Bright's Disease, and said they could do nothing to save me. My back ached so I could not stand it to even drive about, and passages of the kidney secretions were so frequent as to annoy me greatly. I was growing worse all the time but Doan's Kidney Pills cured me, and I have been well ever since."

A FREE TRIAL of this great kidney medicine which cured Mr. Overbaugh will be mailed on application to any part of the United States. Address: Foster-Milburn Co., Buffalo, N. Y. For sale by all dealers; price 50 cents per box.

For Disorder of the Mouth.

Offensive breath may be caused by de-

caying teeth, or an unwholesome state

of the mouth itself, the lungs or the

stomach. For any disorder of the mouth

there are few things better than a wash

composed of glycerin, one part; boric

acid, one part, and water, 38 parts. The

water should be boiling and the wash be

used when cold. A few drops of tincture

of myrrh will form a pleasant addition.

When the stomach is at fault a benzoic

acid lozenger taken now and then may

prove useful.—Chicago Daily News.

Not Lost on Her.

By a desperate effort the man with

the cowboy hat saved himself from

falling on the slippery crossing.

His impulsive exclamation, however,

was heard distinctly by the elderly

woman of severe aspect who was just

behind him.

"I beg your pardon, ma'am," he said,

raising his hat, "my foot slipped."

"So did your tongue, sir," she re-

sponded frigidly.—Chicago Tribune.

Queer Little Church.

One of the queerest and most isolated

churches in England is a little gray ed-

ifice in the valley of Westdale Head,

Cumberland. It is over 400 years old,

and has only two windows and eight

pews. The pulpit is lighted by a slit of

glass in the roof. A little bell hangs

loosely in the open belfry, and on stormy

nights drearily mingles its tones with

the wind and thunder.—N. Y. Tribune.

Chicago's Lowest Death Rate.

Of the world's great cities, Chicago

has the lowest death rate. Berlin held

second place for a decade until last year,

when London took that position with a

rate of 15.82 per 1,000.

Brilliant Suggestion.

GILLESPIE MURDER.

Trial of the Famous Case Begun

at Rising Sun, Ind.

A Jury Secured, Consisting Most-

ly of Farmers—Prominent Legal

Talent Has Been Employed

on Both Sides.

Rising Sun, Ind., May 10.—The fa-

mous Gillespie murder case has at last

come to trial. When Judge Downey

formally opened court, the little hall

of justice was crowded with excited

spectators, who stood in crowds to get

a glimpse of the four prisoners—Jas.

Gillespie, Mr. and Mrs. Myron Bar-

bour and Mrs. Belle Seward, who are

charged with the murder of Miss

Elizabeth Gillespie, twin sister of

James.

This is the first time in the history

of Indiana, and probably the first in

the history of America, in which one

of twins was accused of the murder of

the other.

A majority of those who had been

summoned in the venire were excused

because they said they did not believe

in capital punishment. The defense is

represented by Capt. J. B. Coles, his

daughter, Cynthia Coles, and Marlow

Griffith. Those who are prosecuting the

now famous case are Theodore

Wulber, prosecuting attorney of Ohio

county; Cassius and Harry McMullen

and Henry W. Splan, a noted criminal

attorney of Indianapolis.

Rising Sun, Ind., May 11.—In the

Gillespie case the work of securing a

jury was resumed at 9 o'clock Tues-

day morning. The first peremptory

challenge by the state excused James

Hulbert, a farmer.

Juryman George Hanna said that he

had answered a question Monday

which he did not understand. He said

he would not vote to hang a woman.

He was excused.

A jury was finally secured, as fol-

lows: Albert Patey, farmer; David

Bailey, farmer; David H. Gibson, far-

mer; George Reiman, farmer; W. J.

Powell, farmer; Hugh French, farmer;

W. J. Spalding, farmer; H. W. Nea-

man, farmer; Sherman Clark, mechan-

ic; W. O. Powell, retired farmer; Hen-

ry Kurr, shoe dealer; Wade H. Rod-

gers, farmer.

Rising Sun, Ind., May 12.—There

was a change in the personnel of the

jury in the Gillespie case. It has been

proved that Oscar Jones, a sworn juror,

is a third cousin of Mrs. Belle Seward,

one of the defendants. Attorney

Spaan's motion to remove Jones from

the jury was sustained by Judge Dow-

ney. The motion was a long typewrit-

ten document, and recited that Oscar

Jones' mother was a first cousin of the

mother of William Seward, husband

of Belle Seward, one of the defendants

in the present case. William Seward

is dead, but Attorney Spaan cited pre-

cedents and authorities to show that

the relationship still continues. In

fact, he proved that in Indiana rela-

tionship continues up to the fifth de-

gree, and is recognized in court.

Attorney Thomas Shay made a mo-

tion that all four defendants in the

Gillespie case be dismissed at once. He

said that according to the Indiana laws

the quartet now under indictment are

as good as freed. Shay contended that

the removal of Oscar Jones as a juror

has changed the entire complexion of

the case, and that his clients can not

again be placed in jeopardy. He said

that Jones is not related to any of the

defendants, no relationship has been

proved, and that the laws from the

earliest period of Indiana will show

numerous precedents why the quartet

of indicted persons should be dismissed.

The motion of Mr. Shay caused a sen-

sation in the courtroom, and after

Judge Downey rapped for order he

overruled it.

BEET SUGAR INDUSTRIES.

There Has Been An Increase in the

Number of Factories.

Washington, May 11.—A report on

AS CHIEF ENGINEER.

John F. Wallace Appointed By the

Panama Canal Commission.

Washington, May 11.—Adm. Walker,

president of the Panama canal com-

mission, received a telegram Tuesday

from John Findley Wallace, of Chi-

cago, general manager of the Illinois

Central railroad, accepting the ap-

pointment of chief engineer in charge

of the construction of the canal. Mr.

Wallace will receive a salary of \$25,

000 a year.

"Mr. Wallace has been considered

for some time by members of the canal

commission for the position of

chief engineer," said Adm. Walker.

"No one stands higher in his profes-

sion or is better equipped to take up

the work mapped out than he, and the

commission is to be congratulated on

securing the services of such a man."

Mr. Wallace will take up his work

with the commission on June 1. He

will arrive in Washington on or before

that date and for the present will have

his office at the headquarters of the

commission in this city.

It is estimated that about two years

will be required to complete the sur-

veys, make the estimates of cost and

decide on the final plans. In round

figures the canal will cost \$200,000,000

and will require ten years to complete

it. Aside from the engineers, machin-

ists and other skilled labor the con-

struction work will give employment

to 50,000 men.

Possibly the most important quali-

fications possessed by Mr. Wallace is

his ability and tact in the management

of men. For several years all ques-

tions involving the matter of labor and

the control of labor organizations in

the entire system of the Illinois Cen-

tral Railroad Co. have devolved upon

Mr. Wallace for settlement. The 23

different labor organizations found

among the employees of the Illinois

Central have always had the most im-

plicit confidence in his decisions. As

evidence of this, it can be stated that

they have never in a single instance

appealed from his decisions to higher

authorities since he has been general

manager of the road.

The appointment of Mr. Wallace as

chief engineer of the canal means his

practical residence on the isthmus

while the canal is being built. He will

depart for the scene of his new work

almost immediately, probably not la-

ter than the middle of June.

THE FERRIS WHEEL.

Bar of Iron Fell From the Top, Kill-

ing a Laborer.

St. Louis, May 11.—A bar of iron

fell from the top of the Ferris wheel

at the World's fair Tuesday, striking

a laborer on the head and killing him

instantly. Dr. Edward Lewis respond-

ed from the Emergency hospital in an

ambulance and upon arriving found

the laborer dead, and refused to take

the body to the hospital, suggesting

that the morgue wagon be called. This

angered the dead laborer's 100 fellow

workmen, who insisted that the body

should be taken in the ambulance. Dr.

Lewis was knocked down, beaten and

kicked by the crowd till it became nec-

essary for him to be taken away as a

patient in his own ambulance.

VISITING FILIPINOS.

The Municipality of Boston Will Not

Entertain Them.

Washington, May 11.—Col. Edward

Saxton, of the Insular bureau of the

war department, Tuesday received

from Mayor Patrick A. Collins, of Bos-

ton, a reply to a letter he wrote re-

garding the entertainment of 50 Phil-

ippine representatives who will visit

eastern cities, saying that the munic-

ipality of Boston will not entertain

such a delegation. Mayor Collins says

that the delegation represents purely

commercial bodies and that any cour-

tesies should be extended by commer-

cial organizations.

THEATRICAL MANAGERS.

A Call For a Congress to Be Held in

New York City.

New York, May 11.—Henrich Con-

THE CARNEGIE DIALECT.

When He Resorts to the "Brogue"

Andrew Can Get the Best of

Them Balled Up.

Though Andrew Carnegie's English is

singularly elegant and pure, he has at

his command a world Scotch dialect, says

the Minneapolis Tribune.

Mr. Carnegie is a student of Scotch

words and idioms. He likes to point out

the oddities and freaks of his native

tongue. Recently, at a dinner party in

New York, he said to a young woman:

"So you think you can understand Scots,

eh? Well, then, what do we mean in

Scotland when we say a person is just

fish?"

"I don't know. What do we mean?"

The young woman asked.

"We mean he is a bit of a weed har-

rum-scum," said Mr. Carnegie.

"A weed harum-scum? What is

that?"

"It is the same as wowie."

"But what is wowie?"

"Wowie is nook or sal. That is to say,

a bit by the east. Havers, lassie, ha'e ye

no Scots at all?"

Then Mr. Carnegie laughed and ex-

plained that a weed harum-scum, at

last, take Cuticura Resolvent Pills to cool

and cleanse the blood, and put every
